## Support programs

Included for you and eligible family members.

### Personal Support Workers

Greenshield has partnered with SE Health who provides nurse led assessments for PSW care and helps coordinate with government funded and other community services.

### Carepath chronic disease/cancer management

Carepath's Chronic Disease program connects you to a Nurse Case Manager who provides personalized support and expert health care system navigation.

From diagnosis through treatment and recovery, you and your family can receive assistance managing all types and stages of chronic disease, including cancer.

## Dietitian health coaching

Included for you and eligible family members.

This program focuses on improving your health by making better choices when it comes to your food.

It's offered as part of GreenShield's Well-being platform.

Go to the Work, Health and Life section on GreenShield+ app, choose Personalized Nutrition, and fill in the necessary information.
